PROFESSIONAL EXPERIENCE

AGILE CYBER SECURITY and TECHNOLOGY LIMITED NIGERIA — 2017- Present

I established an indigenous novel company Agile Cyber Security and Technology Nigeria Limited (AgileCST Ltd) since 2017. Key objectives include focus on local content innovations and IT job creation for Nigerian professionals. Specific areas are Consultancy, IT/Cyber security, Block Chain, Fintech, Data Analytics, Artificial Intelligence (AI) Disaster Recovery and High Availability Solutions. Industry focus includes public sector and private sector (Financial and Banking sector).

IBM CORPORATION New York — 1986-2017

Dynamic engineering and management career advancing through responsible positions. Delivered significant and sustained contributions in sales, business and technical leadership, technology acquisitions, international alliances, complex contract negotiations, project management, strategic marketing planning and customer relationship.

Program Director, Global Business Security Services Leader IBM Corporation

In this world-wide role, I was responsible for leading IBM Global Managed Security Services business development, strategy and sales for Virtual Security Operations Center (VSOC) portfolio; qualifying potential business partners for collaboration in the security space; delivering complex repeatable business model and solutions to customers in the small, medium and large enterprise market to protect clients from cybersecurity sophisticated attacks. I am also responsible for quarter to quarter signings/revenue, contract negotiations, business relationships and managing pipeline that will drive the revenue target. I utilize my over twenty years of international business experience to navigate and drive complex deals to closure working with the various executives and legal team in the regions; building trusted adviser relationships that deliver market leading results; ensuring smooth transition to delivery and high client satisfaction.

Endy Chiakpo
5/30/2025
